DOV: September 18, 2015

Dear Ms. Hammel:

Congratulations on getting Wyatt's Law introduced. I believe it is a critical registry to be established for the State of Michigan. Anything we can do to protect our children from perpetrators of violence or pedophiles is appropriate in a civil society.

Thank you for your advocacy. Please thank Dr. Roberts for her initiative in this regard.

Anything I can do to support and help the law get through please let me know.

Sincerely,

John D. Roarty, M.D.
